

# ANTHONY L. SMITH JR.

Security Analyst | Junior Security Engineer | DoD RMF & Vulnerability Management

Philadelphia, PA • 215-868-5852 • alspsu@gmail.com

asmith-sec.github.io • linkedin.com/in/anthony-smith-6a453a89 • Active U.S. Secret Clearance

## PROFESSIONAL SUMMARY

---

Security-focused IT professional with 10+ years in systems administration and DoD compliance, now specializing in cybersecurity. Hands-on with Risk Management Framework (RMF), ACAS/Nessus vulnerability assessments, Security Assessment Reports (SARs), packet analysis, and Python automation. Active U.S. Secret Clearance • CompTIA Security+, Network+, CSIS.

## PROFESSIONAL EXPERIENCE

---

### Systems Administrator / Security Analyst (RMF Support)

Jan 2020 – Present

*EHS Technologies* | Philadelphia, PA

- Execute **Risk Management Framework (RMF)** activities for DoD enterprise systems — risk assessments, vulnerability documentation, **POA&M** management, mitigation tracking, and continuous monitoring to maintain cybersecurity compliance.
- Conduct in-depth **vulnerability assessments using ACAS / Tenable Nessus** and additional DoD assessment tools; author **Security Assessment Reports (SARs)** supporting system certification and accreditation.
- Provide systems engineering support including **hardware/software integration and Independent Verification & Validation (IV&V)**, improving overall system security and reliability.
- Built **Python** tooling that parses ACAS/Nessus CSV exports, ranks hosts by CVSS risk, and auto-generates SAR drafts — significantly reducing manual report-writing time.

### Logistics / Container Coordination Officer

Jan 2019 – Dec 2019

*KBR (Kellogg Brown & Root)* | Houston, TX

- Developed and implemented logistical plans and procedures for CONUS and OCONUS supply-chain operations, achieving a **20% reduction in transit delays** through workflow optimization and cross-functional coordination.
- Designed performance metrics and coordinated packing, inventory, and transportation of government assets across military, government, and commercial channels.

### Access Control Officer (NAVSEA)

Feb 2018 – Dec 2018

*Windwalker* | Boston, MA

- Partnered with Naval, DoD, and federal law-enforcement personnel to secure Level One and Level Two **NAVSEA federal facilities** through access control; maintained an active **Secret Clearance**.
- Led property-possession inspections of personnel and contractors to prevent unauthorized exposure of classified, secret, and top-secret information and equipment.

### Human Resources – Special Projects

Apr 2017 – Feb 2018

*Pennsylvania Army National Guard* | Philadelphia, PA

- Coordinated statewide recruiting and retention efforts; liaised with recruiting teams across Pennsylvania and nationwide.
- Partnered with contractors to launch an iOS/Android recruiting application and led social-media recruitment policy and event coverage.

### IT Support Analyst

Feb 2016 – Apr 2017

*Lincoln Financial Group* | Chesterbrook, PA

- Performed routine network maintenance and troubleshooting to keep operations running with minimal interruption.
- Resolved hardware, software, and mobile-device issues for end users in person, by phone, and remotely; trained users on systems, applications, and operating environments.

## TECHNICAL SKILLS

---

**Security & Compliance:** Risk Management Framework (RMF), NIST 800-53 / 800-37, Vulnerability Assessment, ACAS, Tenable Nessus, Security Assessment Reports (SARs), POA&M, eMASS, Continuous Monitoring, DoD 8570 IAT II

**Network & Threat Analysis:** Wireshark, tcpdump, Packet & Protocol Analysis, TCP/IP, Log Analysis, Threat Hunting, IOC Detection, MITRE ATT&CK, CVSS Scoring

**Systems & Tools:** Windows Server, Active Directory, Linux (RHEL / Ubuntu), ServiceNow / ITSM, Hardware & Software Integration, IV&V, Asset Management

**Scripting & Automation:** Python, PowerShell, Bash, SQL, Git / GitHub, CSV / log parsing, Scapy

## EDUCATION

---

### B.S. in Cybersecurity

In Progress

*Western Governors University* | Online

Additional coursework — Information Sciences & Technology, Minor: Security & Risk Analysis • Penn State Abington

## CERTIFICATIONS & LANGUAGES

---

**Certifications:** CompTIA Security+ (DoD 8570 IAT II) • CompTIA Network+ • CompTIA Secure Infrastructure Specialist (CSIS) • Project Management Professional (PMP) • Certified Associate in Project Management (CAPM) • Lean Six Sigma Green Belt

**In Progress:** CompTIA CySA+ • ITIL 4 Foundation

**Languages:** English (Advanced) • Spanish (Intermediate)
